For Immediate Release

ROKMASTER CLOSSES \$2.7 MILLION FIRST TRANCHE OF FINANCING

(Vancouver, British Columbia – February 15, 2022) – Rokmaster Resources Corp. (TSXV: RKR) (OTCQB: RKMSF) (FSE: 1RR1) (“**Rokmaster**” or the “**Company**”) is pleased to announce that it has closed the first tranche of its a non-brokered financing (the “**Financing**”) with the issuance of 10,853,000 units at a price of \$0.25 per unit (a “**Unit**”) for gross proceeds of \$2,713,250.

Each Unit is comprised of one common share of the Company and one non-transferrable common share purchase warrant to purchase one additional common share of the Company (a “**Warrant Share**”) at a price of \$0.45 per Warrant Share for a period of two years expiring on February 14, 2024 (the “**Expiry Date**”), subject to the Acceleration Provision.

If at any time prior to the Expiry Date, the Company’s common shares trade at or above a price of \$0.65 per common share on the TSX Venture Exchange (the “**Exchange**”) for a period of 10 consecutive trading days commencing four months plus one day after the issue date, the Company may, at its option, accelerate the Expiry Date by issuing a press release announcing such acceleration (the “**Acceleration Press Release**”), and, in such case, the Expiry Date shall be deemed to be the 30th day following the date of issuance of the Acceleration Press Release (the “**Acceleration Provision**”).

The securities issued pursuant to the Financing are subject to a four-months and one day hold period expiring June 15, 2022 and were not offered or registered in the United States.

In connection with the closing of the Financing, the Company paid cash finder’s fees in aggregate of \$150,378, and issued a total of 601,510 finder’s warrants (the “**Finder’s Warrants**”) to certain finders. Each Finder’s Warrant entitles the holder to purchase one Warrant Share at a price of \$0.45 for a period of two years expiring on February 14, 2024 and is also subject to the Acceleration Provision above.

Proceeds from the Financing will be used to fund the Revel Ridge Project and for general working capital purposes.

The technical information in this news release has been prepared in accordance with Canadian regulatory requirements as set out in National Instrument 43-101 and reviewed

and approved by Eric Titley P.Geol., who is independent of Rokmaster and who acts as Rokmaster's Qualified Person.

On Behalf of the Board of Directors of

Rokmaster Resources Corp.

John Mirko,
President & Chief Executive Officer.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this press release.

About Rokmaster

Rokmaster controls a portfolio of three significant exploration and development projects all of which are in southern British Columbia in regions of excellent infrastructure. The three projects include:

1. *Revel Ridge*. Rokmaster is currently conducting an underground drill program at the Revel Ridge Project located in southeastern British Columbia 35 km's N of the City of Revelstoke. Revel Ridge is host to a high-grade gold and polymetallic orogenic sulphide deposit which has been the subject of a Preliminary Economic Assessment Technical Report dated December 8, 2020 and an updated Mineral Resource Estimate with an effective date of November 15, 2021, both published on Sedar.
2. *Big Copper*. Rokmaster controls the Big Copper Property in the Creston area of Southern British Columbia. Big Copper is a high-grade copper-silver occurrence hosted in mid-Proterozoic rocks. Copper-silver mineralization has been traced for 4 km along strike and is exposed in a series of adits and trenches over approximately 400 to 500 m of vertical relief. Big Copper likely belongs to a class of stratabound replacement copper-silver deposits hosted within mid – Proterozoic quartzitic sedimentary rocks. The style and stratigraphic setting of mineralization at Big Copper may be analogous to similar stratabound silver-copper deposits in NW Montana e.g., the Troy Mine (64 million tonnes of 0.74% Cu and 54 g/t Ag (Western Mining History, 2020) or Hecla's Montanore Mine, 112 million tonnes at

51.2 g/t Ag and 0.7% Cu (Hecla, 2020 Annual Report, Pg. 119. www.hecla-mining.com).¹

Footnote (1). The qualified person has been unable to verify this inferred resource.

3. *Duncan Zinc.* Duncan is a carbonate hosted silver-lead-zinc deposit located near Duncan Lake in southern British Columbia. The Duncan Deposit is hosted within a Cambrian age Badshot Limestone which also hosts Ag-Pb-Zn mineralization at Teck's currently producing Pend D'Oreille mine, as well as past producers including the Blue Bell Mine, Reeves MacDonald, Jersey-Emerald and HB mines. Mineralization at Duncan Lake forms in the crest and limbs of the regional scale Duncan Lake Anticline, where strong lead-zinc +/- silver mineralization has been traced by surface and underground drilling for approximately 2500 m. At Duncan Lake, Rokmaster will be targeting > 30 Mt of >10% Pb+Zn+Ag. Historical background and a geological synthesis of the Duncan Lake Deposit is provided in a NI 43-101 report by *Lane, B., 2018: Technical Report on the Duncan Lake Project.*

CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS: This news release may contain forward-looking information within the meaning of applicable securities laws ("forward-looking statements"). Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "potential" and similar expressions, or that events or conditions "will," "would," "may," "could" or "should" occur. These forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those reflected in the forward-looking statements, including, without limitation: risks related to fluctuations in metal prices; uncertainties related to raising sufficient financing to fund the planned work in a timely manner and on acceptable terms; changes in planned work resulting from weather, logistical, technical or other factors; the possibility that results of work will not fulfill expectations and realize the perceived potential of the Company's properties; risk of accidents, equipment breakdowns and labour disputes or other unanticipated difficulties or interruptions; the possibility of cost overruns or unanticipated expenses in the work program; the risk of environmental contamination or damage resulting from Rokmaster's operations and other risks and uncertainties. Any forward-looking statement speaks only as of the date it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking statement, whether as a result of new information, future events or results or otherwise.
